“ *I have many fond memories of Frank for he was my supervisor at the Biltrite corporation for many years. One I really remember is when he was getting on to me and a buddy for staying on break upstairs to long and the time study man was standing there at the time. He told Frank to leave us alone we were already making more money than anyone in the plant and if we were down here working it would be terrible. We all for a good laugh out of it. I know he will be loved and missed by so very many people.*
