“ *The world is a good deal darker with out you John. I miss you, so very much. You were not just my customer, not just my friend, but my family. We have spent every day together for over a year. I promised you once that no matter what I would always be there for you and help you with anything ever that you needed. I will continue to do so. Your kind and amazingly sweet sense of life and humor will be with me always. So many things I could say, which would likely confuse most. You were a very pivotal role in the Volcano vaping family, you made such an amazing impact on everyone everyday. You also helped many people stop smoking and I don't know if you know how many people you saved or not, but you did. You were a selfless person who never complained and took life for what it was worth... precious. I will miss how you would check on me either by sending me a message in chat or facebook or call me just to make sure I was okay, when all along you were the one I was checking on. You always worried about others, when we weren't the one that you needed to worry about. But, your huge heart couldn't help yourself. It will always mean so much to me that you did that for us.*

I knew you as Candyman, how very true it is and a name could never be more fitting. You certainly were one of the sweetest and most caring people I have ever met. Thank you for the honor to be apart of your life. I will keep you with me every day of my life. Thank you.

I will look after Kim for you, you have left me with an amazing friend in your wife. Her love for you is so amazingly real. What an amazing woman.
