“ *I remember when Aunt Lorena would get so tickled about something that she could hardly compose herself. It still makes me smile today. She always was glad to see her nieces and nephews, and in later years, she enjoyed her great nieces and nephews as well. It was always fun when Aunt Lorena came to visit.*

“ *Aunt Lorena, being a thoughtful and generous soul, enjoyed sending family members impromptu gifts. The most memorable ones Diane and I received were a Bible and a set of silverware/flatware. She said she couldn't afford to give us things when we were youngsters, but felt that she could in her later years.*
